Our Designations:

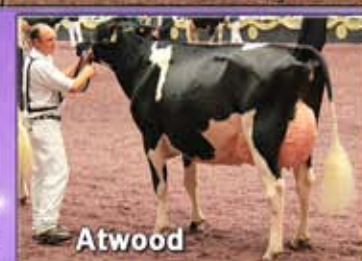

The Showcase Selections designation is given to sires who will or have sired daughters that possess the traits to excel in the show ring.

Super Samplers™ earn this designation through their pedigree and genomic information for Type traits. Proven sires warrant this designation once their daughters have delivered proven results in the show ring.

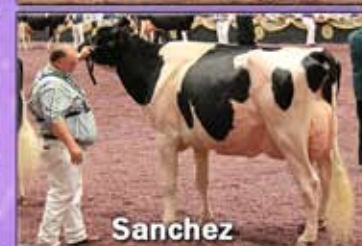

Look for our Showcase Selections logo  in our Sire Directories.

All photos shown here are daughters of Showcase Selections sires at the 2013 World Dairy Expo.

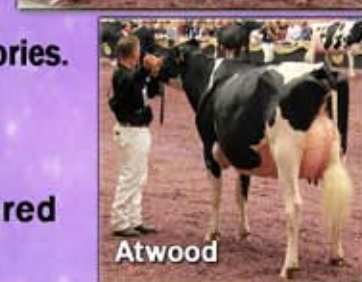

All "Our Designations" and their standards will be featured in upcoming Select Connections issues.

Our Products:

Uddermint

"Uddermint is the original liniment marketed in the dairy industry. Select Sires has made it a household name. Many have tried to copy and say they have an Uddermint like product too. The 35% Japanese peppermint in Uddermint, is the key to the strength of the product. Because of the aggressive nature of this Japanese peppermint oil, when it is applied to an area with swelling or inflammation, it generates heat and increase blood flow to the area where it is applied. This increased blood flow helps the cow clean up the inflammation and reduce the swelling naturally. Uddermint is all natural, and requires no milk withdraw. It can be used effectively for swelling in udders, swelling in hocks, or any other area with inflammation. I recommend using 10 cc of product 2-3 times per day for 2-3 days to make a significant reduction of the inflammation. When applying, thoroughly massage into the infected area for optimal results. Organically approved in Canada." Greg Stumpf - Vice President Corporate Accounts North America, Ecolab Inc.

OUR SALES REPRESENTATIVE TALKS ABOUT:

Uddermint

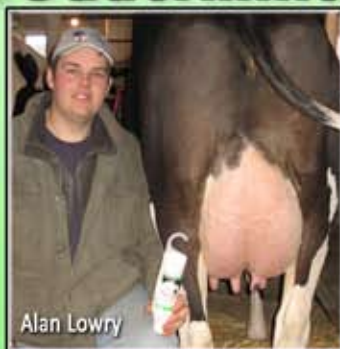

"Our customers appreciate the 2.5 L size, hanging in the parlour, for its ease of use."
- Dave Massey Product Specialist.

OUR CUSTOMERS TALK ABOUT: Uddermint

Alan Lowry,
Penlow Farms, Almonte, Ontario.

"We've used UDDERMINT for several years to soften udders. We use it on fresh cows and heifers to help with edema. By the next milking, we can see a difference."

Alan Lowry

Jeff Maitland,
Maitland Meadows Farms, Jasper, ON.

"We really appreciate UDDERMINT's soothing effect on our cow udders. We find the 2.5L packaging quite cost effective."

Ronnie & Jeff Maitland

Deb Knapton @Knapview 12 Oct

Shout out to @SelectSiresInc ! Made the switch to 4XLA and SCC has dropped steadily since. Nice to be back in the low 100's! #4xla

Darryl Markus @dmarkridge 12 Oct

@Knapview @SelectSiresInc we had the same results when we started using it a year and a half ago
